PROFILE

Determined and result driven professional senior consultant and PMO with a solid base of knowledge and experience including project planning and management, researching and recommending solutions, training stakeholders overseeing the implementation of transformative initiatives within the Energy and Utilities Industry. Motivated to challenge myself in increasingly complex activities and projects and in different sectors in order to strengthen my skills. Eager to collaborate as a team and to make myself available to achieve the goals set.

PROFESSIONAL EXPERIENCE

Feb 23 - present **Senior Consultant | Accenture, Rome, Italy**

- Led cross-functional teams in crafting and executing comprehensive digital strategies for clients in energy industry, by end-to-end evaluation and management of strategic projects, starting from requirements definition, through monitoring and release of project deliverables.
- Supporting clients to define business objectives and key performance indicators (KPIs), establishing a foundation for measurable success through the preparation of specific reporting on business applications (PowerBI)
- Identified opportunities for process optimization and efficiency improvements within client organizations, driving operational excellence
